3641. Mr S W Mkhize (MK) to ask the Minister of Basic Education:

- (1) Given that some targets and performance indicators of her department for the 2025-26 financial year were evidently insignificant and ineffective in tracking meaningful improvement on the material conditions and the quality of teaching and learning in public schools, what steps has she taken to ensure that the targets and performance indicators focus on tracking the substantive numbers and quality outputs for real progress towards providing a better education to South Africans in the 2026-27 financial year;
- (2) whether, in view of the identified weakness under Programme 1; the department tracks the number of reports on misconduct cases resolved within 90 days and submitted to the Department of Public Service and Administration, not the number of misconduct cases resolved against the number of cases received, in terms of which it does not speak to the responsiveness and quality of resolving the reported misconduct cases timely, but on tracking the target of 4 reports received quarterly, which is easy to reach even without substance therein, the weakness will be allowed to persist; if not, what are the details of the remedial plan; if so, what are the relevant details;
- (3) what measures have been taken in terms of Programme 2, where her department shows the number of schools monitored for implementing entrepreneurship education with the target of 270 annually against the total number of 23 000 schools in the Republic, to ensure that the targets and outputs are more substantive in the 2026-27 financial year in comparison to the 2025-26 financial year, noting that the baseline is extremely massive against the target and deteriorating conditions in the Republic;
- (4) whether, in view of most targets relying on the number of monitored schools providing a particular service or implementing a particular intervention, but without making specific reference to a specific minimum standard criterion relied on to benchmark quality, such standard criteria exist; if not, (a) why not and (b) how does her department measure quality against each quality assessment area; if so, what are the reasons that such reference is not made, if the standard criteria exist under each assessment area;

- (5) whether, regarding the target of schools provided with sanitation facilities under Programme 4 being 50 annually in the 2025-26 financial year, against the heavily infrastructure backlog estimated at R140 billion for the 2026-27 financial year, as also seen during the oversight visits of the Portfolio Committee on Basic Education, she will furnish Mr S W Mkhize with details of when her department will start to address the perpetually growing infrastructure backlog, in order to address the deteriorating material conditions; if not, why not; if so, what are the relevant details?

NW3851E

3645. Mr Z E Mthethwa (MK) to ask the Minister of Justice and Constitutional Development:

NW3863E

NW3864E

3658. Mr M P Motubatse (MK) to ask the Minister of Health:
